

## **SINGLE POINT OIL LUBRICATOR**

 Drop Feed Oiler are Single Point Lubricators and are mounted directly on the lubrication point.

These oilers dispense oil by gravity from transparent reservoir through Needle Valve. The Needle Valve is joined with Toggle Pin by which the operator can on/off the flow manually. The flow of the oil is controlled by adjusting the Needle Valve and can be visualized from the in built sight glass.

These oilers are available in different Thread Size from 1/8" BSP To 3/8" BSP.
